

INFORMATION SESSION

NEWLY DIAGNOSED AND NEW TO MS

Our newly diagnosed information sessions are for people who are *relatively* new to MS. You may have had your diagnosis a few weeks or a few years – this workshop is an overview of the disease, its management and the services of MS Queensland. Family and friends are very welcome, as learning about the symptoms and treatment options improves family understanding of the disease.

- What is MS
- Treatments
- Research
- Self - Management and Living Well
- Working with and Understanding your health care partners

Date: Wednesday 28 February 2018

Time: 5:45pm for a 6:00pm start – finish 7:30pm

Venue: MS Queensland Services Department
173 Annerley Road, Dutton Park
